

A mono-material table with a monochromatic finish.

The important technological innovation it incorporates, combined with the tensioning capacity of the components, makes it possible to build tabletops in large sizes which remain perfectly flat and also extremely light.

Frame and tabletops

A table available in two versions:

- **Mono-material finish** in matt white, made of acrylic resin and rock minerals.

Tabletop, edges and legs covered with a 3mm thick sheet of resin.

- **Monochromatic finish** in matt black and medium grey acrylic resin and EXTRA MATT, high-pressure stratified laminate of the latest generation.

Tabletop in stratified laminate with mass colouration; edges and legs in acrylic resin and rock minerals.

The 35mm thick tabletop is a load-bearing composite board built with an internal frame consisting of either aluminium profiles and polystyrene filler (mono-material version), or an acrylic resin honeycomb and two outer layers of aluminium (monochromatic version).

35x35mm steel legs with internal structural tie.

The acrylic resin coating is in the same matt colours as the tabletop.

Dimensions

The table is available in 25 sizes, height 73cm.

Accessories

The table is also available in a version equipped with 1 or 2 openings and an undertop tray. The openings in size 350 or 420mm are in aluminium.

A steel spring can be inserted into the pre-drilled holes (every 50cm) at the bottom of the undertop tray to group the cables on the floor together.

Finishes:

- matt white lacquer with tables in matt white
- matt black lacquer with tables in black, and medium grey.

Please note

Tense is recommended for indoor use, only.

The dimensional tolerance in both width and length is 0/+5mm.

Please specify in the order if the tables would be eventually put close one another.

Special sizes are not available

For further information about specs, please refer to pricelist, section 8 tables of materials/colours.

Monochromatic version (colour)

black

medium grey

NB: with the monochromatic version, there might be a slight difference in the tone between top and frame due to the variety of materials used: extra matt for the top, and acrylic resin and rock minerals for the legs/edge.

TABLE standard version

TABLES with openings for cable (not available for the brass version)

with one or two lateral openings for cable management in size 35 cm

with one central opening for cable management in size 42 cm

with two front openings for cable management in size 42 cm

with two central openings for cable management in size 42 cm

Undertop cable tray

Opening for cable management in size 35 cm
